RE: Annual Primary Export Report
Clean Earth of North Jersey
Reporting Period: January 1 to December 31, 2012

Dear Mr. Heiss:

Enclosed please find the Annual Primary Export Report for the Year 2013 for the Clean Earth of North Jersey facility referenced above.

SITE ADDRESS: Clean Earth Inc.
105 Jacobus Avenue
South Kearny, New Jersey 07032

MAILING ADDRESS: Clean Earth Inc.
115 Jacobus Avenue
South Kearny, New Jersey 07032

FACILITY CONTACT: Robert Fixter, General Manager, (973) 344-4004
Cheryl L. Coffee, Corporate EH&S Manager, (215) 734-1400

US EPA ID No.: NJD 991291105

LIST OF EXPORTS: Attachment 1

EXPORT WASTE

MINIMIZATION CLAUSE: Attachment 2

A copy of the report has additional been submitted to the New Jersey Department of Environmental Protection (NJDEP) in order to satisfy their reporting requirements.

If you have any additional questions, you can contact me at (215) 734-1400.

Sincerely,
CLEAN EARTH INC.

A handwritten signature in black ink, appearing to read "Cheryl L. Coffee". The signature is fluid and cursive, with the first name "Cheryl" being more prominent.

Cheryl L. Coffee
Corporate EH&S Manager

EXPORT WASTE MINIZATION CLAUSE

EXPORT WASTE MINIMIZATION CLAUSE FOR 2012

Clean Earth of North Jersey, Inc. (CENJ) has in place a waste minimization procedure which includes the following items.

1. GENERATOR EDUCATION

Through conversations with our Generators by our Technical Representatives and Environmental Specialists, CENJ informs Generators of changing regulations as well as four major reduction methods. The waste reduction methods are:

1. Waste Abatement
2. Good Housekeeping
3. Waste Reuse
4. Waste Recycling

2. FUEL BLENDING

CENJ has long been involved with the practice of fuel blending. The fuel blending program entails the bulking of various solvents and other chemicals that are blended to meet the specifications for alternative fuels for cement kilns. The practice of fuel blending beneficially re-uses the waste materials, as well as reduces the amount of virgin fuel products consumed by the cement kilns.

3. STABILIZATION

CENJ also reduces the toxicity of various waste streams through the use of cement kiln dust. Cement kiln dust produces cement-like aggregate that encapsulates the various toxins. The final product is a media with soil-like consistency. In addition, CENJ also beneficially utilizes fly ash and other combustion by-products that otherwise would have been managed at a Sub-Title D Landfill.

4. INCINERATION

CENJ also uses a 3rd party commercial incineration for some of the waste materials. Incineration is reserved for limited types of material that cannot be managed in any other manner.

In conclusion, Clean Earth of North Jersey uses all of the aforementioned technologies to properly handle the waste material. There has been no significant decrease in volume of toxicity of CENJ's waste exports relative to the previous years. The facility's waste minimization program remains effective, however, as a commercial RCRA Part B Treatment Storage and/or Disposal Facility (TSDF), CENJ's waste generation is subject to market fluctuations.

I certify under penalty of law that I have personally examined and am familiar with the Information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment.

After printing this label:

1. Use the 'Print' button on this page to print your label to your laser or inkjet printer.
2. Fold the printed page along the horizontal line.
3. Place label in shipping pouch and affix it to your shipment so that the barcode portion of the label can be read and scanned.

Warning: Use only the printed original label for shipping. Using a photocopy of this label for shipping purposes is fraudulent and could result in additional billing charges, along with the cancellation of your FedEx account number.

Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on fedex.com. FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$1,000, e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.
